**Stora Enso Division Packaging Materials**
**Customer Information letter on the end of life of paper and board products**

This customer information letter covers the products of Stora Enso Consumer Board Unit (Skoghall, Fors, Ingerois, Imatra) and Beihai Mill which are based on fresh fibres and products of Stora Enso Container Board Unit (Oulu, Heinola, Varkaus, Ostroleka) which are produced with fresh, or with predominantly fresh or with fully recycled fibres. Recycled fibres are selected by classifications according to EN 643.

## ***The USA "Model Toxics in Packaging Legislation" also known as CONEG***

Based on our current knowledge, all paper and board products, also extrusion coated, produced by Stora Enso Division Packaging Materials comply with the USA "Model Toxics in Packaging Legislation" also known as CONEG. The sum of lead, cadmium, mercury and hexavalent chromium in the paperboard is less than 100 ppm. In addition, we do not intentionally[1] add polyfluoroalkyl substances (PFAS) or phthalates in our products.

[1] *Intentionally added shall mean deliberately utilized in the formulation of a material or component where its continued presence is desired in the final product to provide a specific characteristics, appearance or quality. Please note that this information is based on the information gained from our suppliers, and we do not routinely test our products against all these substances.*

## ***Packaging and Packaging Waste Directive***

All paperboard and extrusion coated products produced by Division Packaging Materials comply with the Packaging and Packaging Waste directive 94/62/EC as amended on the following requirements:

- The sum of lead, cadmium, mercury and hexavalent chromium in the paperboard is less than 100 ppm (EN 13428).
- The level of substances hazardous[2] to the environment in the paperboard is less than 0,1% (EN 13428).

[2] *Requirements for classification of substances or preparations dangerous to the environment and assigned the hazard statements H400, H410 and H411 according to the Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures (CLP).*

## ***Material recovery***

Our paperboard and extrusion coated products are suitable for recovery by:

- Material recycling (EN 13430)[3]
- Energy recovery (EN 13431)

[3] *The company placing the final package and/or product into the market should do a self-assessment according to EN 13430.*

## ***Compostability***

Certain of our paperboard materials are intended for compostability and have compostability certificates available separately.

The information in this customer information letter is valid for paper and board products delivered by the mills of Stora Enso Packaging Materials, before further packaging converting.
